

90% of opioids come from the medicine cabinets of friends or family.

Learn to how to keep your house medicine safe.

MedicineSafe.org is a coalition of local community organizations, our Connecticut Governor Dannel Malloy and Attorney General George Jepsen, and national partners, invested in providing our citizens with safe tools and information about prescription drugs.

The MedicineSafe resources help consumers find safe ways to manage prescription medicines in their home—whether it's buying or storing medicine or addressing addiction.
